

HAPPY COCOONING

Embrace moments of warmth

COLLECTION 2026

FOREWORD

Happy Cocooning has always been about more than just outdoor products. It's about creating a feeling. A place where warmth, comfort, and togetherness come naturally. Where outdoor living becomes an extension of your home, a place to relax, to share stories, to slow down, and simply enjoy the moment.

Cocooning is not just a word to us. It's a state of mind. The luxury of simplicity. The comfort of being together. The quiet pleasure of a soft flame, good company, or even a moment alone as the evening settles in. Whether you are gathered around the fire with friends or enjoying the silence by yourself, our wish is that our products make you feel truly at home, outdoors.

Over the past period, we have carefully reimagined Happy Cocooning. With great attention to design, materials, and atmosphere, we have refined our collection to better reflect who we are today. This rebranding marks a new chapter, one that stays true to our roots while looking confidently to the future.

Every Happy Cocooning product is designed to bring people closer, to create atmosphere, and to turn ordinary moments into lasting memories. Moments you'll want to return to, again and again.

I invite you to sit back, take your time, and discover our collection.

Embrace the moments of warmth
